on hand ai
STAFFING

AI employees for professional services firms.

The phones, the intake, the billing and the books, done every day inside the systems your firm already uses. A person on our team answers for every employee's work.

Accounting and CPA firms, law offices, insurance agencies, consultants and agencies.

What they would do for you

Front desk
from $350 a month

- Answers every call and takes a clear message
- Books consultations and sends the reminders
- Sends intake forms and chases the missing documents

Assistant
from $400 a month

- Keeps a partner's inbox and calendar in order
- Drafts the follow-up after every meeting
- Tracks deadlines and what clients still owe you

Billing and collections
from $300 a month

- Sends the month's invoices on time
- Follows up on late ones, politely and on schedule
- Records payments and flags who never pays

Bookkeeper
from $250 a month

- Codes transactions, reconciles bank and cards
- Closes the firm's own books every month
- Sends the partners a short report

Works inside what you already use

QuickBooks Online · Outlook · Gmail · Clio · Xero · Docusign · Calendly · Gusto

and 170+ more. Anything else, built in 2 business days.

Four full-time employees for $37,200 a year. Hiring them costs $184,020.

That is 80% less, before payroll taxes, benefits, sick days and the weeks it takes to hire and train someone.

Role	on hand, full-time	Hiring it
Front desk vs. a receptionist	$9,600	$38,010
Assistant vs. a administrative assistant	$10,800	$48,310
Billing and collections vs. a bill and account collector	$9,000	$47,030
Bookkeeper vs. a bookkeeping clerk	$7,800	$50,670
A year	$37,200	**$184,020**

on hand at its Full-time size, monthly, with no 1-year discount. Hiring: US Bureau of Labor Statistics, median annual pay, May 2025, pay alone. A smaller business usually needs the Part-time size, from $250 a month.

Every day

It works evenings, weekends and holidays, and doesn't quit.

No hiring

No job posts, interviews or training weeks. It starts on your systems.

Someone answers for it

A person on our team checks its work and is reachable any time.

How it starts

1

Tell us the job

About 25 minutes of your time: what the job is and which systems it works in. We connect them, read-only until you say otherwise.

2

It trains for free

It learns how your business does the job and does a first pass on every task. Nothing goes out without your OK until you're ready.

3

It works for real

One fixed price a month, no usage bills. A person on our team watches its work, answers for it, and is reachable any time.
