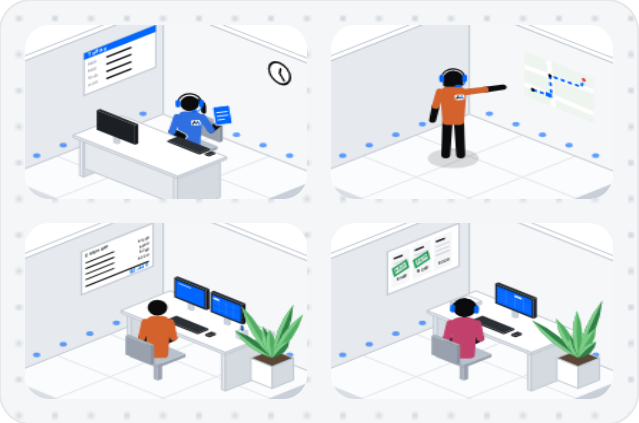
on hand ai
STAFFING

AI employees for the trades.

The phones, the schedule, the quotes and the invoices, handled while your crews are out on jobs. A person on our team answers for every employee's work.

Contractors, HVAC, plumbing and electrical, roofing, landscaping and auto repair.



What they would do for you

Front desk
from **$350** a month

- Answers every call, after hours too
- Takes the job details and books it
- Tells customers where their job stands, from your own system

Dispatcher
from **$350** a month

- Puts each job with the right tech
- Confirms with the customer and reschedules when a job runs over
- Sends the on-the-way text

Estimator
from **$1,000** a month

- Reads the plans and photos
- Prices from your own price sheet and past jobs
- Every quote waits for your OK
- Follows up on quotes you've sent

Invoices and collections
from **$300** a month

- Invoices the job the day it's done
- Follows up on late payers, politely and on schedule
- Records payments and flags who never pays

Works inside what you already use

QuickBooks Online · Jobber · Housecall Pro · Tekmetric · Shopmonkey · Procore · AccuLynx · RingCentral

and 170+ more. Anything else, built in 2 business days.

Four full-time employees for $52,200 a year. Hiring them costs $214,120.

That is 76% less, before payroll taxes, benefits, sick days and the weeks it takes to hire and train someone.

Role	on hand, full-time	Hiring it
Front desk vs. a receptionist	$9,600	$38,010
Dispatcher vs. a dispatcher	$9,600	$50,340
Estimator vs. a cost estimator	$24,000	$78,740
Invoices and collections vs. a bill and account collector	$9,000	$47,030
A year	$52,200	**$214,120**

on hand at its Full-time size, monthly, with no 1-year discount. Hiring: US Bureau of Labor Statistics, median annual pay, May 2025, pay alone. A smaller business usually needs the Part-time size, from $300 a month.

Every day

It works evenings, weekends and holidays, and doesn't quit.

No hiring

No job posts, interviews or training weeks. It starts on your systems.

Someone answers for it

A person on our team checks its work and is reachable any time.

How it starts

1

Tell us the job

About 25 minutes of your time: what the job is and which systems it works in. We connect them, read-only until you say otherwise.

2

It trains for free

It learns how your business does the job and does a first pass on every task. Nothing goes out without your OK until you're ready.

3

It works for real

One fixed price a month, no usage bills. A person on our team watches its work, answers for it, and is reachable any time.
